

BENCHMARK

Lifetime Guarantee

What the Benchmark Lifetime Guarantee Covers

If your registered ring is ever damaged during normal wear, Benchmark will repair or replace your ring free of charge.

If your finger size ever changes, Benchmark will resize or replace your ring free of charge. In the event that material has to be added to your ring to complete the sizing, you will only be charged the price of the metal or stones necessary to create the new piece.

How to Register Your Benchmark Ring

Your Benchmark ring must be registered within thirty (30) days of purchase to receive the Lifetime Guarantee.

To register your Benchmark ring, you may log on to benchmarkrings.com or request that your certified Benchmark retailer register your ring through their business to business retailer website. The following items are necessary for your successful registration:

- + Store receipt, store name, store address
- + Benchmark style number
- + Purchase price
- + Guarantee number (located on lower left corner of this certificate)

Please Note

The Lifetime Guarantee does not cover a ring that has been purchased or ordered in the incorrect finger size or if finger sizes have changed since the time of purchase and actual physical receipt of the piece.

- + All rings must be registered within 30 days of your purchase of the band.
- + Diamond bands can only be sized after at least 60 days of ownership and wear.
- + All other bands will be sized after 30 days of ownership and wear.
- + Third-party alterations to the band (other than engraving) will automatically void the Benchmark Lifetime Guarantee.
- + Please call 1-800-633-5950 if you have any questions about the guarantee or if you do not wish to register online.
